ROP-KEY

SPARE KEY FOR ROP–100/101 (10–PACK)

ROP–KEY is a set of 10 spare keys designed to be used with the **ROP–100/EU** and **ROP–101/EU** manual call points. The key is a multifunctional device that allows you to manually test the MCPs for proper operation and remove their enclosure. Using the key, you can also reset the MCP by replacing the broken glass pane or restoring the pushed–in plastic insert to its original position.

- designed to be used with ROP–100/EU and ROP–101/EU
- enables:
    - testing
    - resetting
    - removing the enclosure cover
- the pack contains 10 keys
