

INT-AVT

ALARM ACOUSTIC VERIFICATION PANEL

The **INT-AVT** alarm acoustic verification panel supplements the **INT-AV** module. It is equipped with a speaker and a microphone which enable two-way voice communication between the monitoring station personnel and persons present in the protected site.

- two-way transmission of audio signals between the intercoms and the telephone line
- two-way communication activation button
- up to 4 **INT-AVT** panels may be connected to the **INT-AV** module
