## **ANT-GSM-E**

## **GSM ANTENNA**

The ANT–GSM–E dual–band antenna is designed to work with alarm control panels and communication modules which have GSM telephone and standard SMA connector. The IPX–SMA adapter allows you to use the antenna also for other devices operating in the 900/1800 MHz frequency bands.

ANT-GSM-E antenna design enables it to be mounted on enclosures offered by SATEL.

- 900/1800 MHz antenna
- SMA male connector
