CA-64 OPS-OC

OUTPUT EXPANSION MODULE

An extension module for VERSA and INTEGRA control panel outputs making it possible to extend a system with 8 additional outputs. Depending on the module variant, this may include "open collector" type outputs, relay outputs or a combination of both these types. The CA–64 OPS module is equipped with a back-up power supply (capacity 2.2 A) ensuring additional power to supply alarm system elements.

- system expansion with 8 outputs
- 8 low current OC outputs
- switching mode power supply
