

CA-5 KLED-S

LED KEYPAD FOR CA-5 CONTROL PANEL

The CA-5 KLED-S keypad is used for daily operation of systems based on the CA-5 control panel. It is a compact device, on which LEDs are used to precisely indicate the alarm system status. The LEDs clearly inform the user about the operation performed, which is helpful in avoiding handling errors. The occurrence of defined events can also be signaled acoustically. In addition, respectively marked buttons are provided on the keypad that can be used to directly trigger the three alarms: PANIC, FIRE and AUX. The keys have green backlighting for comfortable use even in low light conditions.

- LEDs for zones state indication
- keypad hold-down PANIC, FIRE and AUX alarms
- keypad backlight
- buzzer for acoustic signaling
- communication loss indication

TECHNICAL DATA

Supply voltage	12 V DC
Enclosure dimensions	80 x 95 x 20 mm
Standby mode current consumption	15 mA
Weight	76 g
