

B-3A

SURFACE-MOUNTED MAGNETIC CONTACT (METAL HOUSING, SCREENED WIRING)

Magnetic contacts are basic elements of a perimeter protection system. Medium–size **B–3A** tight magnetic contacts in a metal housing are designed for surface mounting. The metal screen protects the wiring against damage, which makes these contacts a perfect solution for locations particularly vulnerable to sabotage attempts or mechanical exposure. They can only be mounted by screwing them to a surface.

- surface mounted (screw mount)
- rugged, metal sealed body
- armored cable

TECHNICAL DATA

| Operating temperature range | -10+55 °C |
|--|------------------|
| Weight | 82 g |
| Maximum humidity | 93±3% |
| Make distance | 37 mm |
| Break distance | 44 mm |
| Dimensions magnet enclosure | 50 x 9,8 x 17 mm |
| Environmental class according to EN50130-5 | |
| Reed switch enclosure dimensions | 50 x 9,8 x 17 mm |
