INT-AVT

ALARM ACOUSTIC VERIFICATION PANEL

The **INT–AVT** alarm acoustic verification panel supplements the **INT–AV** module. It is equipped with a speaker and a microphone which enable two–way voice communication between the monitoring station personnel and persons present in the protected site.

- two–way transmission of audio signals between the intercoms and the telephone line
- two–way communication activation button
- up to 4 **INT–AVT** panels may be connected to the **INT–AV** module
